REASONS FOR ALLOWANCE

Remark

- This Office Action is in response to applicant's amendment after final rejection filed on December 14, 2005, which will be entered into the file.
- By this amendment, the applicant has amended claim 22 and has canceled claim 24.
- Claims 20-23 remain pending in this application.

Reasons For Allowance

1. The following is an examiner's statement of reasons for allowance: of the prior art references considered, none has disclosed an *optical pickup device* having a *single real laser light source* and a *hologram member* that diffracts the light from the laser light source to form at *least two imaginary light sources*. The *hologram patterns* of the hologram member is *determined* to give diffraction light an *inverse aberration* of an aberration caused by optical elements in the optical path from the real light source to the recording medium wherein the aberration includes a *sub aberration caused upon diffraction in forming the imaginary laser light sources* so that the *aberration is canceled* and a *diameter* of each of a plurality of light spots formed on the recording medium is *reduced with respect to non-aberration corrected light spot*.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
